

Transforming Vision into IT Governance

**Aligning Technology with Mission, Compliance,
and Security Without Compromise.**

Viderity partners with organizations to design and implement robust governance frameworks that align technology investments with mission objectives, regulatory mandates, and industry-leading security practices, ensuring every initiative delivers strategic value and long-term resilience.

In today's rapidly changing digital landscape, effective IT governance is essential for achieving operational excellence and delivering lasting impact. Viderity provides a comprehensive approach that integrates policy, process, and technology to ensure every IT initiative delivers measurable results. Our governance solutions are designed for agility, compliance, and scalability, empowering agencies and organizations to adapt quickly while maintaining full control over their technology ecosystem.

Aligning Technology, Compliance, and Mission Objectives

Strong IT governance turns strategy into execution and execution into results. Without it, agencies face fragmented systems, inconsistent processes, and increased risk exposure.

Viderity's governance services address:

Strategic Alignment: Ensuring technology initiatives directly support mission goals

Regulatory Compliance: Meeting and exceeding NIST, FISMA, FedRAMP, and Section 508 standards

Security Posture: Embedding Zero Trust principles and continuous monitoring into every project

Operational Efficiency: Streamlining decision-making and reducing rework

Change Control: Establishing structured review boards to minimize disruptions and manage risk

Viderity has implemented IT governance for enterprise-scale environments, including modernization of identity and access management, oversight of the application lifecycle, and compliance with accessibility standards across multiple federal contracts.

A Proven Framework for IT Excellence

Governance Structures

- Process mapping to define decision rights, accountability, and actual delivery of IT services
- Establishment of steering committees and change control boards
- Definition of decision rights and accountability structures
- Role-based access controls tied to governance processes

Policy & Standards Development

- Creation and enforcement of IT policies
- Accessibility, cybersecurity, and data privacy standards
- Continuous updates aligned with federal and industry regulations

Performance & Compliance Monitoring

- Metrics dashboards for system performance, security incidents, and compliance status
- Regular governance audits and risk assessments
- Integration with ServiceNow, Jira, or custom dashboards

Technology Lifecycle Oversight

- From acquire to retire
- Configuration management and version control (Jira, Git, ServiceNow)
- Documentation and rollback/recovery readiness

Stakeholder Engagement & Training

- Governance workshops for leadership and technical teams
- Communication plans to keep stakeholders aligned
- End-user training for compliance and security awareness

Tools and Platforms Supporting IT Governance

Viderity integrates governance processes with a full suite of enterprise tools, ensuring that the right technology supports policies, performance, compliance, and decision-making. Our toolkit covers every aspect of IT governance:

Portfolio & Project Management

Jira

Agile backlog, sprint, and release management

ServiceNow ITBM

Demand, portfolio, and resource governance

Microsoft Project

Enterprise scheduling and milestone tracking

Zephyr – Integrated test management

Policy & Standards Management

Confluence / SharePoint –

Centralized policy repository and governance documentation

Custom Governance Portals

– Developed to house policies, procedures, and decision logs

PowerDMS

Policy lifecycle management and compliance tracking

Risk & Compliance Management

IBM AppScan / Prisma

Security scanning and compliance validation

MetricStream / Archer (GRC)

Enterprise governance, risk, and compliance management

ISO Management Platforms

Support for ISO 9001, 27001, and 20000 audits and documentation

IT Asset & Configuration Management

ServiceNow ITAM & CMDB

Asset inventory and configuration governance

Flexera

License compliance and optimization

SolarWinds

Configuration and network monitoring governance

Financial Governance & Cost Management

Apptio

IT financial transparency and investment governance

AWS Cost Explorer

Cloud spend tracking and optimization

Microsoft Power BI / Tableau

Linking financial performance to portfolio health

Architecture, Development, and Testing

AWS / Azure

Secure, compliant cloud platforms with governance controls

Java, Drupal, React

Standards-based development frameworks

Selenium, JMeter, Postman, Swagger

Testing and quality assurance tools

Okta / SailPoint

Identity and access governance

Siteimprove / SortSite / WAVE

Accessibility governance and monitoring

Why Agencies Choose Viderity for IT Governance

Proven Federal Experience

Governance for IAM, application modernization, and accessibility compliance at agencies

Integrated Expertise

Combining strategic consulting, cybersecurity, and program management under one roof

Certified Quality

CMMI, CMMC, ISO 9001, 27001, and 20000 certified, HUBZone and WOSB certified

Agile & Secure

Governance processes tailored for both rapid delivery and strict compliance

High Client Satisfaction

Consistently rated "Exceptional" in CPARS evaluations

Modernization Delivered

Advanced system modernization, strengthened compliance, and accelerated delivery through effective IT governance.

Mission-focused

Whether your organization needs to modernize systems, strengthen cybersecurity, or unify technology operations under a consistent governance model, Viderity delivers a framework that is practical, scalable, and mission-focused.

About Viderity:

Viderity is a HUBZone and WOSB-certified professional services firm that empowers organizations through digital innovation, strategic consulting, creative design, advanced technology, and operational excellence. We don't just implement technology, we help clients reimagine how to leverage it to drive transformation, enhance outcomes, and deliver lasting impact. With a proven track record across diverse industries, Viderity offers solutions that seamlessly align with organizational missions, delivering measurable value across Federal, both DoD and civilian, and Commercial sectors. Our consistent Exceptional ratings on Contractor Performance Assessment Reports reflect our unwavering commitment to excellence. Backed by a highly credentialed team, with over one-third holding advanced degrees (master's or doctorates) and professional certifications, Viderity ensures superior results in every engagement.
